

INSTRUCTIONS FOR IDAHO FORM PTE-12

GENERAL INSTRUCTIONS

Form PTE-12 is the reconciliation schedule to be included with the entity's Idaho income tax return (Form 41S, Form 65, or Form 66) as required by Idaho Code section 63-3036B. Each owner's complete information is required on the PTE-12 regardless of whether the owner has Idaho distributable income or a loss. If Form 66 is being filed, refer to the Form 66 Specific Instructions for information on completing Form PTE-12.

A pass-through entity (entity) as defined in Idaho Code section 63-3006C includes a partnership, limited liability company taxed as a partnership, an S corporation, or a trust or estate. Income, loss, deductions, and credits typically flow through and are taxed at the owner level. This means that each owner includes their distributive share of income or loss from the entity on their individual income tax return. At the entity's discretion, the income for Idaho nonresident individuals may be included and taxes paid on the entity's composite return.

A pass-through entity transacting business in Idaho with income taxable in Idaho has reporting requirements for each pass-through owner type.

- **Resident and part-year resident individuals**
 - These owners must report the income from the entity on their Idaho income tax returns. They can't be included in a composite filing and are not subject to withholding.
 - Resident and part-year resident individual owner information must be included on the PTE-12. Enter **"R"** in the filing Code column.
- **Corporations, partnerships, trusts, and estates**
 - These owners must report the income on their Idaho return.
 - The information for these owners must be included on the PTE-12. Enter **"N"** in the Filing Code column.
- **Nonresident individual owners with Idaho distributable income of less than \$1,000.**
 - These owners must report the income from the entity on their Idaho income tax returns if they have other reporting requirements. They are not included in a composite filing and are not subject to withholding.
 - The information for these owners must be included on the PTE-12. Enter **"N"** in the Filing Code column.

- **Nonresident individual owners with Idaho distributable income of at least \$1,000.**

An entity has three options:

- Composite filing
- Withholding via Form PTE-01
- Form PTE-NROA

Composite filing

Under the composite filing option, the entity pays the tax for the nonresident individual(s) on the entity return at the corporate rate (7.4%).

The nonresident individual's information must be included on the PTE-12. Enter **"C"** in the Filing Code column.

Withholding

Under the withholding option, the entity pays Idaho income tax withholding computed at the highest individual rate (7.4%) on the nonresident individual's Idaho source distributable income from the entity.

The withholding is submitted to the Tax Commission using a Form PTE-01 for each nonresident individual owner.

The nonresident individual's information must be included on the PTE-12. Enter **"W"** in the Filing Code column.

PTE-NROA

Under the Form PTE-NROA option, the nonresident individual owner may submit a signed agreement (PTE-NROA) to the entity. This agreement allows the owner to file an Idaho return to report the Idaho source distributable income from the entity and pay the required tax due. If the entity receives Form PTE-NROA for a nonresident individual owner and approves it, the entity does not include the individual in a composite filing or pay withholding to the Tax commission on the owner's behalf.

The nonresident individual's information must be included on the PTE-12. Enter **"A"** in the Filing Code column.
